from 23-24 May 2019. The abstract submission date is **31 January 2019**.

The theme for the 2019 conference is “*The human being in the 21<sup>st</sup> Century in the context of global changes*”. What it means to be human in this day and age is contingent on finding meaningful solutions to the grand societal challenges of our time.

The Fourth SAJU Forum Conference is an academic, abstract-driven event that will offer researchers of both South Africa and Japan an opportunity to share existing research collaboration, research interests, achievements and perspectives, and opportunity to discuss possibilities for future collaboration. It is also an important engagement for dialogue between the universities and other stakeholders from the two countries.

You are invited to submit papers for the Fourth South Africa-Japan Universities Forum Conference. The Conference will be presented at the University of Pretoria

The conference organisers are: Universities South Africa (USAf), the Centre for Japanese Studies (CJS) at the University of Pretoria, the National Research Foundation (NRF), the Japanese Embassy and the African Studies Centre (ASC) at the Tokyo University of Foreign Studies (TUFS). As well, the Japan-Africa Academic Network (JAAN) is involved as cooperator.

## SUB-THEMATIC AREAS

In the 21st Century, humanity and the human-earth nexus face unprecedented changes and challenges that are both multidimensional, and often simultaneously local and global.

The following sub-thematic areas of the conference frame these challenges. The intention of the Fourth SAJU Forum is to deliberate on collaborations between researchers and students in the two countries with the intention to positively influence these challenges.

The four sub-thematic areas are:

1. **Health and wellness:** medical science, public health, sports, arts, culture, education, transportation, city planning, and areas studies.
2. **Security and social justice:** food security, water security, agriculture, environment, clean energy, ecology, citizenship, resource management, poverty reduction, area studies, and politics.
3. **Growth, exploration and conservation:** economics, business science, natural sciences, development, heritage, area studies; and politics.
4. **A technical session** on modalities of research support for collaboration, student and staff mobility, and postgraduate education. Participants in this session are expected to share information/university information that is current or planned:
  - a. Study exchange programmes: undergraduate, masters or PhD
  - b. Agreements on joint supervision
  - c. Cultural exchanges (short campus visits/tours)

## EXPECTED OUTCOMES

The promotion of South Africa-Japan bilateral collaboration, undergraduate and postgraduate student mobility and academic exchange initiatives, faculty collaboration, co-supervised programmes for postgraduate students, and joint research partnerships.

## FORMAT

The conference format is a combination of abstract-driven, academic discussions with oral presentations, panels, interactive networking sessions, and high-level engagements.

## ANTICIPATED PARTICIPANTS

- Researchers and academics from universities, research institutions and science councils;
- Researchers and academics from existing South Africa-Japan partnerships or collaborative projects;
